

# COOL AIR™ RENTALS LTD

## AIR COOLED INDUSTRIAL PORTABLE

## 25 TON

This is the monster truck of our packaged air cooled fleet and handles any industrial or film industry challenge with ease. If you need big time cooling where the unit must sit outside, this is the unit for you.

### Features:

- Available in either skid mounted or air-filled tire versions
- Large lifting eyes allow for easy hoisting from crane truck to working location
- Requires 208 volt three phase power

### Applications:

- Temporary Structures
- Film Locations
- Special Events - Festivals
- Planned Maintenance Shutdowns

No matter what your circumstances are, Cool Air has the solution. This facility required long term cooling to keep operations running smoothly. The placement area was not accessible by road so this crane was used to hoist this 25 ton into place.

Special events often require large amounts of cooling. These 25 ton units were installed to keep staff and patrons comfortable, even with the hot summer sun.

The film industry used these units on site to cool UBC Thunderbird Arena. Large areas needing cooling are what these machines are made for.

REAL COOL. REAL FAST.
