

COOL AIR™ RENTALS LTD

AIR COOLED PORTABLE

5 TON

This 5 ton is the largest and most powerful air cooled portable there is. This baby really cranks out the cool air and is ideal for all kinds of short and long term cooling challenges.

Features:

- Solid performer in mid and large size server rooms
- Can handle industrial applications
- Requires 208 volt 3 phase power
- Condensate must be pumped to drain
- Auto restart after power failure

Applications:

- Server Room Cooling
- Emergency Cooling
- Network Operation Centres
- Telephone Equipment Rooms

When the dedicated unit in this critical server room failed and servers started to crash, we were able to respond quickly and install this large portable unit, returning temperatures to normal.

With the same easy to install features of our small units, these cooling heavy-weights really pack a punch.

Serious cooling applications require our largest portable units. We have an entire fleet ready to roll.

REAL COOL. REAL FAST.

AIR COOLED PORTABLE 5 TON (ACP5V23)

COOLING		PHYSICAL	
Medium	Air	Controls	Thermostat with Auto Restart
Capacity	60,050 Btu's	Evaporator Air Flow	1950 CFM

ROLL IN

Good quality casters and compact size make locating these units a breeze.

PLUG IN

These units vent the heat laden air into the ceiling space above the room.

TURN ON

An easy to use thermostat allows for complete temperature control.

We also rent industrial air conditioning units, fans, air movers, and industrial strength heating units. Visit www.cool-air.com for our full line of rental equipment.
