

COOL AIR™ RENTALS LTD

WATER COOLED INDUSTRIAL

3 TO 30 TONS

Encompassing our largest product line, these portable units are true workhorses. They are amazingly adaptable and can be used in an unlimited number of applications. Intelligent construction coupled with great cooling technology makes these units the ideal choice. Bring us your temperature control problems.

Features:

- Packaged units allow unmatched flexibility
- Completely portable, sets up in minutes
- Handles industrial and commercial applications with ease

Applications:

- Film Studios
- Emergency Cooling
- Planned Maintenance Shutdowns
- Electrical Vaults

Floor space concerns dictated that these three 3 ton units be located outside of the area being cooled. We had no trouble operating these units from the space adjacent to the server room.

These 5 ton units are the backbone of our water cooled fleet. They are the "go to" machines when server room cooling problems surface.

This movie set required a large amount of cooling. Site constraints dictated smaller mobile units that could deliver precision cooling to specific areas. These 10 ton units exceeded expectations.

REAL COOL. REAL FAST.

WATER COOLED INDUSTRIAL 3 TO 30 TONS
