RENTALS LTD

WATER COOLED INDUSTRIAL PORTABLE

10 TON

This workhorse is built to handle the toughest of cooling jobs. Transitioning from server room to filmset to industrial site, this water cooled unit handles it all. Reliable cooling technology with grit.

Features:

- Largest capacity unit that fits through a conventional 36" x 84" door
- Completely portable, sets up in minutes
- Auto Restart after power failure
- Requires 208 volt three phase power
- Push button or remote control capability

Applications:

- Film Studios
- Manufacturing Areas
- Electrical Vaults
- Emergency Cooling

This atrium approached meltdown when the ventilation system quit working. This 10 ton unit restored reasonable air temperatures and the classrooms surrounding this space were not met with a wall of heat when the doors opened.

This 10 ton is one of our most popular film industry units. It contains three elements that make this one of our go to machines. Great cooling power, relative compact size, and an effective price level.

Equally adept at precision cooling, this 10 ton unit was called upon to provide emergency cooling to this electrical vault. The perforated industrial duct was used to deliver air directly to the electrical cabinets.

REAL COOL. REAL FAST.

WATER COOLED INDUSTRIAL PORTABLE 10 TON (WC110V23)

COOLING		PHYSICAL	
Medium	Water	Controls	Thermostat, Push Button, Remote Control
Capacity	120,000 Btu's	Evaporator Air Flow	4000 CFM
Capacity	10 tons	Supply Air Duct	20"
Capacity	Approx. 4000 Sq. ft.	Condensate Collection	Pumped with Back-up
ELECTRICAL		Water Consumption	7 Gallons per Minute
Voltage	208	Water Connection	3/4" GHT
Phase	Three	Filter Type	Blue Polyflo
