

COOL AIR™
RENTALS LTD

WATER COOLED INDUSTRIAL PORTABLE

30 TON

Consider these babies the “monster trucks” of our water cooled line. Our largest packaged unit that can tackle the toughest cooling assignment. Using our flexible industrial ducting you can take clean cool air where you want it - now.

Features:

- Completely film set ready
- Simple learning curve for location staff to master operation
- Requires 208 volt 3 phase power

Applications:

- Film Studios
- Industrial Plants
- Electrical Vaults
- HVAC Retrofits and System Upgrades

This large temporary structure was built around this full sized house. The structure allowed for night scenes to be filmed during the day. Filming took place during July and August, meaning that the heat inside the structure needed to be managed.

Four of these monsters were set side by side on this film set. Some of the units were ducted, some simply discharged off the top of the unit. Flexibility and adaptability are some of the strengths of utilizing multiple units for these applications.

This stadium event required a large amount of cooling equipment to run continuously. By positioning the units away from the stage and running flex duct through the back of house area, we were able to deliver air to the event all day long.

REAL COOL. REAL FAST.

WATER COOLED INDUSTRIAL PORTABLE 30 TON (WCI30V23)

COOLING		PHYSICAL	
Medium	Water	Controls	Push Button, Remote Control
Capacity	360,000 Btu's	Evaporator Air Flow	12,000 CFM
Capacity	30 tons	Supply Air Duct	2 x 20"
Capacity	Approx. 12,000 Sq. ft.	Condensate Collection	Pumped with Back-up
ELECTRICAL		Water Consumption	15 Gallons per Minute
