

COOL AIR™

RENTALS LTD

WATER COOLED INDUSTRIAL PORTABLE

5 TON 3PH

This 5 ton is one of the most flexible units available and is an ideal machine for any urgent cooling application. It fits in any elevator, makes it down computer aisles, and has an electrical requirement that is easily satisfied.

Features:

- Completely portable, sets up in minutes
- Effective as primary or supplemental cooling equipment
- Uses 208 volt three phase power

Applications:

- Emergency Cooling
- Standby Cooling Applications
- Planned Maintenance Shutdowns

These 5 ton units are the backbone of our water-cooled fleet. Often called upon for emergency server room cooling, they are the go to units.

When air needed to be delivered around this large, open room perforated ducting was a great option. Rather than having many small units, this 5 ton got the job done.

This store had a delay in upgrading it's dedicated a/c unit. Customers and staff were wilting under the heat from the massive lighting package. This portable seamlessly meshed with the building system to return comfort levels to normal.

REAL COOL. REAL FAST.

WATER COOLED INDUSTRIAL PORTABLE 5 TON 3 PHASE (WCI5V23)
