

WATER COOLED PORTABLE

3 TON

The versatility of this unit allows it to be used to cool people or servers with equally good results. It has proven to be very effective for all kinds of short or long term spot cooling problems.

Features:

- Cool air where you want it quickly
- Cold supply air can be ducted away or simply delivered off front of unit
- Requires 208/230 volt power
- Auto restart after power failure

Applications:

- Server Room Cooling
- Office Area Cooling
- Electrical Vaults
- Laboratories

These three ton units are a great choice when it comes to cooling server rooms. Compact size with powerful cooling capacity means that you can focus on your core business. The cooling issues are solved.

Large open office spaces are another spot where these units work great. Use them as either primary or supplemental cooling.

When the dedicated cooling in this store failed, the rapidly escalating temperature was melting everything from chocolate cars to clerks. Portable cooling solutions like these are simple yet effective.

REAL COOL. REAL FAST.

WATER COOLED PORTABLE 3 TON (WCP3V21)
