

COOL AIR™
RENTALS LTD

WATER COOLED PREMIUM PORTABLE

1.5 TON

These specialized units are perfect for cooling office spaces when the building cooling is either off or ineffective. All we need is a water source and a drain up to 100 feet away and we'll have you "chillin" in no time.

Features:

- Compact design
- Can be hooked up to any sink or faucet
- Enhanced control capabilities
- Auto restart after power failure

Applications:

- Office Area Cooling
- Laboratories
- Convenience Stores
- Network Operation Centres

Students in this classroom were able to focus on their studies after we installed this premium unit.

Temperatures can escalate rapidly in a server room. This unit was installed as a backup unit in case the dedicated unit failed.

An ideal application for this premium portable. The building system failed at the peak of a heat wave. We installed these portables and comfort levels were restored.

REAL COOL. REAL FAST.

WATER COOLED PREMIUM PORTABLE 1.5 TON (WCPP1.5V11)
