

# COOL AIR™ RENTALS LTD

## AIR COOLED INDUSTRIAL PORTABLE

## 10 TON

This large scale unit adapts well to industrial cooling projects or film industry challenges. It has the strength to deliver frosty air up to 100' away. Weatherproof construction allows this unit to remain outside even in the foulest weather.

### Features:

- Heavy duty casters make movement a breeze - simply roll in
- Can be controlled by remotely located push-button or thermostat, making operation simple
- Requires 208 volt three phase power

### Applications:

- Special Events - Festivals
- Electrical Vaults
- Temporary Structures
- Emergency Cooling

Prior to being energized by the electrical utility, this vault needed to be cooled by this 10 ton unit. Once the dedicated unit was brought online, we simply rolled ours out of the underground parking area.

This 10 ton unit handled the summer heat and kept the inside of this film location comfortable.

While in drydock, the dedicated chiller on this yacht was pulled for rebuilding. This unit kept the temperature below deck comfortable for the crew.

REAL COOL. REAL FAST.
