## AIR COOLED INDUSTRIAL PORTABLE

## 4 TON VRT

This specially constructed unit is meant for cooling areas where the unit can be located right up against a tent, dimmer shack or portable building. Vertical orientation occupies minimal floor space.

### Features:

- Waterproof construction ensures trouble-free exterior use
- Instant on/instant off controls make this unit simple to control
- Quiet, reliable and powerful
- Requires 208 volt three phase power

### Applications:

- Film Sets
- Temporary Structures
- Electrical Vaults
- Special Events - Festivals

When this HD Broadcast truck lost half of its cooling, this 4 ton unit rolled in and seamlessly tied into the existing system.

These two units provided 8 tons of temporary cooling to this electrical vault. The vault required cooling in order to be energized by Hydro prior to the dedicated cooling equipment being in place and functional.

Temporary structures like these are an ideal application for these vertical units. This hospital tent required cooling to ensure medical staff were able to function properly in extremely warm conditions.

**REAL COOL. REAL FAST.**

# AIR COOLED INDUSTRIAL PORTABLE 4 TON VRT (ACI4V23)

COOLING			PHYSICAL		
Medium	Air		Controls	Push Button, Thermostat, Remote Control	
Capacity	48,000 BTU		Evaporator Air Flow	1600 CFM	
Capacity	4 ton		Supply Air Duct	16"	
Capacity	Approx. 1600 Sq. ft.		Return Air Duct	16"	
Refrigerant	R22		Condensate Collection	Pumped
