

COOL AIR™ HEAT

ELECTRIC FURNACE - VERTICAL

27 kW

This 27 kW is our largest electric furnaces that will run on a 100 amp three phase circuit. This allows them to be utilized in a vast array of applications from special events to film applications to construction sites. They pack the big time heating punch that you're after.

Features:

- Completely film industry ready
- Dry, safe and quiet
- No hazardous exhaust or troublesome re-fueling problems
- Warm air is ductable up to 50' or supplied straight from the louvered plenum shown here

Applications:

- Tents
- Construction Sites
- Film Sets
- Spot Heating

Using strategically located units, large workshop or warehouse areas can be heated effectively.

This coffee shop needed to be heated while the building unit was being maintained. Customers and staff were kept comfortably warm with this electric furnace.

When the heating system in this office broke down, these units provided immediate dry heat at a sound level that did not disrupt the work in the office.
