

COOL AIR™ HEAT

FURNACE - GAS FIRED

117 kW

If you need major heat, then this is the equipment for you. Well equipped for most situations, these units require a fuel source from a propane cylinder or natural gas hook-up. Our gas-fired furnaces are great for temporary structures where large electrical power is not available. Waste gases can easily be ducted to the outside.

Features:

- Large scale clean, dry heat
- Industrial grade power burner, stainless steel heat exchanger
- Vented combustion gases allow for safe use in confined areas

Applications:

- Temporary Structures
- Industrial Plants

These promotional Olympic tents were kept dry and comfortable because of this gas fired heater. The separate pods of this structure required individual duct runs.

This unit surpassed expectations when it came to heating this temporary structure. Dependable service and reliable equipment are a must when dealing with special events.

Film industry ready, these units delivered the warm air into this warehouse while the exhaust gases were vented straight from the machine located outdoors.

HEAT...IN A HURRY

FURNACE - GAS FIRED

117 kW (HGF117H11)

HEATING		117 kW	PHYSICAL		117 kW
Medium	Gas Fired		Controls	ON/OFF Toggle,	
Capacity	370,000 BTU			Remote Thermostat	
Capacity	117 kW		Supply Air Flow	2500 CFM	
ELECTRICAL			Flexible Ducting	2 x 12" or 1 x 20"	
Voltage	115		Consumption - NG	380 cubic ft/hr	
Phase	Single		Consumption - LP	4.9 gal/hr 18.5 L/hr	
Breaker Size	15 Amps		Heat Rise	130° F 54° C	
Current Draw	12 Amps		Static Pressure	0.75"	
Plug	NEMA 5-15P		Flue Connection	6"	
Power Cord Length	2'		Caster Type	2 x 16" Air-filled	
Power Cord Wire Size	14/3		Dimensions - Width	70" 178 cm	
			Dimensions - Depth	32" 81 cm	
			Dimensions - Height	48" 122 cm	
			Weight	405 lbs 184 kg	

ROLL IN
Large air-filled tires and balanced construction allow this large unit to be wheeled with relative ease.

PLUG IN
High heat insulated duct with pin lock connections can be easily coupled to customize any installation.

TURN ON
A selective toggle allows you to go from on/off control to a wired remote thermostat.
