

COOL AIR™
RENTALS LTD

WATER COOLED PORTABLES

1 TO 5 TONS

When venting heat from an air cooled unit is a problem, water cooled units are an ideal choice. These slim profile units fit virtually anywhere and our custom installation kits allow you to be up and running quickly and easily.

Features:

- Premium units feature enhanced fan control which enables a balance between sound and performance
- Cool air where you want it quickly
- Auto restart after power failure

Applications:

- Server Room Cooling
- Office Area Cooling
- Network Operation Centres
- Laboratories

When you have a serious cooling project, this 5 ton portable is the proven answer. Able to be set up and run in just minutes, they are the biggest units in our portable fleet.

For emergency applications, where the temporary cooling solution has to be running immediately, these plug-in units are the perfect fit.

When this building system failed at the peak of a heat wave, four of these 1.5 ton portables were installed and comfort levels were restored. This was an ideal application for a premium portable unit.

REAL COOL. REAL FAST.
