

COOL AIR™

RENTALS LTD

WATER COOLED PORTABLE

5 TON

This 5 ton is the largest water cooled unit in our portable line. This baby really cranks out the cold air thanks to excellent cooling technology blended with superior engineering.

Features:

- Powerful and reliable
- Hooks up easily to water source and drain
- Cold supply air can be ducted away or simply delivered off front of unit
- Requires 208 volt 3 phase power
- Auto restart after power failure

Applications:

- Computer Room Cooling
- HVAC Retrofits and System Upgrades
- Retail Stores
- Emergency Cooling

When their dedicated cooling system failed, this fitness club had customers turning around and leaving until we installed this 5 ton portable. Once the dedicated unit was repaired, our unit simply rolled out the front door.

This retail space lost all of its cooling. Both the store's customers and the store's product were adversely affected until this portable took over.

When you have a serious cooling project, these portables are the proven answer. Able to be set up and run in just minutes, they are the biggest units in our portable fleet.

REAL COOL. REAL FAST.

WATER COOLED PORTABLE 5 TON (WCP5V23)
