

COOL AIR™
RENTALS LTD

WATER COOLED PREMIUM PORTABLE

1 TON

This is the perfect machine for those precision cooling projects where a combination of compact size and cooling capacity are equally important. This unit continually surprises with what it can deliver.

Features:

- Compact design
- Can be hooked up to any sink or faucet
- Enhanced control capabilities
- Auto restart after power failure

Applications:

- After Hours Cooling
- Classrooms
- Restaurants
- Spot Cooling

This boardroom required an additional boost of cooling when the building system shut down at 6:00 PM. Late evening and weekend meetings were more manageable when the heat from the evening sun was controlled.

The dedicated cooling system of this restaurant broke down in the height of summer. Uncontrolled heat will clear out a restaurant in no time at all. A few strategically placed units made a huge difference to everyone's stress level. Staff appreciated the improved conditions and patrons were unaware that the building had a problem.

This dental clinic ran a lot hotter than the building system was designed to handle. Both the dental staff and patients benefited from comfortable conditions... at least until the drill started.

REAL COOL. REAL FAST.

WATER COOLED PREMIUM PORTABLE 1 TON (WCPP1V11)

COOLING		PHYSICAL	
Medium	Water	Controls	Thermostat
Capacity	13,780 BTU	Evaporator Air Flow	400 CFM
