

COOL AIR™
RENTALS LTD

REAL COOL. REAL FAST.

ROLL IN, PLUG IN, TURN ON.

Cool Air Rentals has grown to be one of Canada's largest suppliers of temporary heating and cooling units. We are constantly adjusting and upgrading our cooling, heating and ventilation equipment to meet the special demands of our clients. Our purpose-built equipment is designed to roll in, plug in, and turn on.

We are the ideal company to turn to for your climate control situation.

SIMPLE!

EXPERIENCE COOL AIR'S EXPERTISE, INNOVATION AND UNCOMPROMISING SERVICE.

Our customers rely on us so that they can operate smoothly, safely and profitably. From averting costly breakdowns that disrupt normal business to handling the creative demands of the film and event industry, we continue to develop new solutions to meet the changing needs of today's industries. Whether it's an emergency situation or a longer term solution, we are positioned to respond to our customer's needs quickly and effectively with our custom-designed systems. Our professional and experienced Cool Air team continues to define the highest standards for service and performance with our teamwork and enthusiasm. Operating from our centrally located distribution centre, our highly mobile fleet makes us a local asset you can't be without.

Film & Event
Industry

Meeting different needs every time.

Cool Air Rentals is the leading choice to meet the unique demands of BC's thriving film and event industry. Unparalleled know-how and the continuous development of specialized equipment allow us to provide the best set-up in the quickest time possible.

Computer
& High Tech

Designed to be fast.

Uncontrolled temperatures can be disastrous for your business. When the temperatures of both your server room and your IT personnel heat up, Cool Air Rentals is unsurpassed in providing the right equipment when you need it. Our units are completely portable, and designed to set up fast to quickly restore acceptable temperature levels in critical spaces. Cooling those trouble spots has never been easier.

Commercial
& Institutional

Built for trouble free performance.

Cool Air Rentals designs cooling and heating solutions to minimize disruption to normal operations. Our clean, quiet and reliable units are custom-built with simple controls for trouble-free performance, so you can focus on what's most important to you.

Industrial

Responding to demands of any size.

Interruptions to your normal HVAC process can mean headaches for you and your operation. Cool Air Rentals has a large selection of industrial-grade heating and cooling units available for delivery and set-up by our experienced crew. These units can also be shipped directly to you, so your millwrights can quickly take care of your problem.

EQUIPMENT DESIGNED TO MEET YOUR NEEDS.

When your situation demands immediate cooling or heating, call on Cool Air Rentals to provide the solution. Our skilled technicians can assess your problem and respond with dependable equipment to ensure that your project is handled quickly and professionally. Industry-leading experience coupled with our highly mobile fleet make Cool Air the ideal company to turn to with your temporary temperature control problems.

COOLING

Air & Water Cooled Portables

Cool Air's full range of custom-designed portable air conditioners is the ideal solution for all kinds of short- and long-term spot cooling applications. Ease of movement and great cooling technology create an adaptable unit for any space. Our expert staff can assess your needs quickly and have the right unit in place with just one call.

Capacities:

- Air cooled portables - from .5 to 5 tons
- Premium air cooled portables - from 1 to 5 tons
- Water cooled portables - from 1 to 5 tons
- Premium water cooled portables - from 1 to 5 tons

Air Cooled Industrial Portables

When you need immediate cooling, these weatherproof units are an excellent choice. They set up quickly and are very mobile, even on an industrial scale. These units are ideal for outdoor film locations or where the unit must be located outside of the building.

Capacities:

- Air cooled industrial - from 3 to 25 tons

Water Cooled Industrial Portables

Our industrial-sized water cooled units are true workhorses. The backbone of our product line, they are amazingly adaptable and are used in an unlimited number of applications. Intelligent construction coupled with great cooling technology make these units the ideal choice for server rooms, electrical vaults and indoor film sets.

Capacities:

- Water cooled industrial - from 1.5 to 30 tons

HEATING

Industrial Strength Heating

It's possible to be too cool. When the situation calls for safe, reliable heat, our industrial-strength heaters are the answer. Our custom built electric furnaces are fully portable and offer unmatched versatility. Whether you are heating a large production space or a small office, we have the right piece of equipment for you. They simply roll in, plug in and turn on. Problem solved.

Capacities:

- Electric furnaces - from 18 kW to 150 kW
- Indirect-fired gas or oil heating units - to 650,000 Btu's
- Standard plug-in heaters - to 1500 watts

SPECIALIZED EQUIPMENT

Fans & Ventilation

These powerful fans provide maximum air movement from minimal electricity to eliminate your ventilation or air exchange problems. Supply refreshing air without having to commit to mechanical air conditioning.

- Desk fans
- Floor fans
- Pedestal fans
- The giant Cool Air Hurricane™

Dehumidifiers & Blowers

Professional drying equipment is especially effective in removing unwanted moisture from structures.

- Latest in drying and humidifying technology
- Extremely portable - sets up in seconds and starts working immediately
- Dry rooms or entire structures with our dehumidifiers

Accessories

We stock a full range of rugged and reliable components needed to offer a total solution for your temperature control problems.

- Flexible Air Duct
- Water Hose
- Electrical cables
- Fittings
- Remote controls
