HURRICANE 15 VENTILATION UNIT

15,000 CFM

This multi-purpose industrial air mover can tackle any ventilation situation. When you need to move serious amounts of air, this is the unit to go to. With the versatility of connecting either flexible duct or sheet metal, your application can be set up and running in minutes.

Features:

- Can push or pull air into or out of a space
- Variable frequency drive allows for pinpoint CFM
- Can be remotely activated from up to 200' away
- Weatherproof

Applications:

- Construction Sites
- LEED - Building Flush Out
- Film Locations

Large tires, forklift pockets, and lifting eyes make it a breeze to load this unit into any project.

Construction sites often require extra ventilation during various stages of the project. This Hurricane was used to provide ample fresh air to workers inside while welding gases and exhaust fumes were present.

Most commercial buildings will have the load capacity to handle rooftop placement of this lightweight unit. With the ability to be connected to the building DDC system, remote activation and control is as simple as can be.

REAL COOL. REAL FAST.

HURRICANE AIR MOVER

15,000 CFM (FVH15H23)

VENTILATION		PHYSICAL	
Medium	Ventilation	Controls	Variable Frequency Drive, Remote Control Capabilities
ELECTRICAL		Air Flow	2000 to 15000 CFM
Voltage	208	Supply Air Duct	30" dia or
Phase	Three	Supply Air Plenum	34" x 34"
Breaker Size	40 Amps	Return Air Plenum	32" x 32"
Current Draw	26 Amps	Filter Type	2" Cartridge Style AP7S
Plug	Cam-Lok	Filter Size	6 - 24" x 24"
Power Cord Length	Inlets Mounted in Electrical Housing	Caster Type	8" Flat free
Power Cord Wire Size	#2 AWG Single Conductor	Dimensions - Width	62" 158 cm
		Dimensions - Depth	56" 142 cm
		Dimensions - Height	
		with adjustable legs	57" - 70" 145 - 178 cm
		with wheels	66" 168 cm
		Weight	1480 lbs 671 kg

ROLL IN

Heavy duty casters allow for easy movement over uneven terrain. Adjustable legs can be inserted to ensure that the unit stays in place.

PLUG IN

You can push or pull air with this versatile unit. It can sit inside your project or outside in the pouring rain.

TURN ON

Simple ON/OFF control along with digital variable speed drive adjustment allows for complete unit control.

We also rent industrial and portable air conditioning units, fans, and industrial strength heating units. Visit www.cool-air.com for our full line of rental equipment.
