

COOL AIR™ RENTALS LTD

PEDESTAL GROUP

16" - 24"

This group of pedestal fans spans from quiet office specific units to large industrial based air movers. When power or budgetary concerns eliminate portable cooling units, these fans are a viable alternative.

Features:

- Uses minimal power and plugs into a standard 115 volt outlet
- Variable speed selections
- Quiet, yet powerful

Applications:

- Server Room Cooling
- Meeting/Conference Room Cooling
- Classrooms
- Special Events - Festivals

This server room needed increased airflow to ensure continuous operation. This pedestal fan was brought in to assist in the cooling process by driving more air through the servers.

These pedestal fans are great for large areas such as department stores. They assist in moving air throughout the building so that customers are cool and comfortable.

Special events are often held in areas that are not enclosed. Fans are an effective and affordable alternative for providing fresh air.

REAL COOL. REAL FAST.

ROLL IN

A solid cast iron base makes sure that these fans stay put.

PLUG IN

All these fans run on convenient 115 volt power. Plug them into any standard outlet.

TURN ON

Two speed switches allow you to select the ideal setting.

We also rent industrial and portable air conditioning units, fans, and industrial strength heating units. Visit www.cool-air.com for our full line of rental equipment.
