

HEALTH CARE COOLING

AIR & WATER COOLED

Health care facilities are loaded with temperature sensitive areas and when problems arise a quick and easy solution is required.

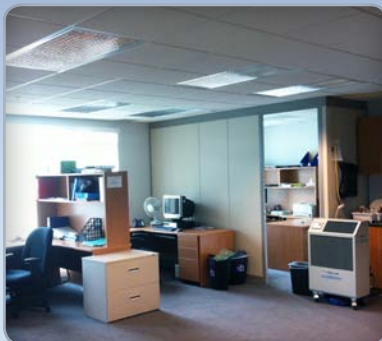

Having this temporary equipment in place allows for the stabilization of airflow and temperature where it is needed most.

Simple, cost-effective, reliable.

One call is all it takes.

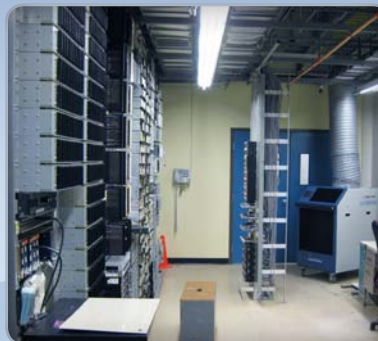

Features:

- Roll in, plug in, turn on technology
- Easily fits through doorways
- Quick installation - cooling in minutes
- Thermostat control

WCPPI.5V11

These small water cooled portable units are perfect for lab areas or office spaces. Run off of readily available 115V power, installation is a breeze.

ACPP5V23

Server and control rooms will have the temperature managed effectively with this 5 ton air cooled portable unit. Simply roll in, plug in, and turn on. Heat energy is vented out into the ceiling space through our 16" flexible duct.

WCI5V23

This 5 ton water cooled industrial unit is the perfect fit for larger spaces. This cafeteria was kept comfortably cool in the heat of summer. The perforated duct allowed for the most effective circulation throughout the open space.

HEALTH CARE COOLING AIR & WATER COOLED
