

COOL AIR™ RENTALS LTD

SPECIAL EVENTS

COOLING & HEATING

With our varied experience and vast array of cooling, heating and ventilating equipment, Cool Air Rentals can put together the ideal equipment package for your special event. From specialty cooling at a convention or trade show to cooling or heating a temporary structure wherever the location, Cool Air has the know-how coupled with the right equipment to make your decision simple.

Features:

- REAL COOL. REAL FAST.
- From small plug in units to large heating and cooling monsters, we cover it all
- Not sure what you need? Call us - we'll help you to figure it out

Temporary structures like these are an ideal application for these vertical 4 ton units. These tents required cooling to ensure that staff and patrons were able to function properly in extremely warm conditions.

This temporary stage required a heat source to be located at the back of house to keep the artists from freezing. We were able to create a warm air bubble that allowed the talent to perform without their fingers falling off.

Flexible ducting was connected to fittings on this inflatable structure. Warm air was delivered inside to make sure guests were comfortable in the height of winter. Heaters of Olympic proportions are what Cool Air is all about.

REAL COOL. REAL FAST.

ROLL IN

Heavy duty casters and good mobility make locating these units a breeze.

PLUG IN

Easily attached industrial flex duct allows for frosty or warm air to be delivered exactly where you want it.

TURN ON

From simple push button ON/OFF control, to the ability to hook up a thermostat, these units adapt easily to any application.

We also rent portable air conditioning units, fans, and air movers.
Visit www.cool-air.com for our full line of rental equipment.
