

COOL AIR™
RENTALS LTD

AIR COOLED INDUSTRIAL PORTABLE

12 TON wide

A very adaptable unit. This air cooled workhorse really delivers the cold air where it's needed most. Twin 16" supply air ducts can be ducted up to 100' from the source. Local or wired remote control allows for unlimited control.

Features:

- Heavy duty casters make movement a breeze - simply roll in
- Operation is easy with either local or remote control capabilities
- Requires 208 volt three phase power

Applications:

- Emergency Cooling
- Temporary Structures
- Electrical Vaults
- Film Locations

The large flat-free casters on this unit make it very location friendly. Able to fit into a 1 ton van allows unmatched portability and the largest capacity easily moved by film production vehicles.

These versatile air cooled units can be positioned just about anywhere. Fitting through double doors and into most commercial elevators allows this unit to reach spaces our conventional units can't. This is the right unit for you.

This building required temporary cooling while under renovations. Allowing the unit to sit outdoors meant that the fresh air requirement was still met.

REAL COOL. REAL FAST.

AIR COOLED INDUSTRIAL PORTABLE 12 TON (ACI12H23W)
