

COOL AIR™ RENTALS LTD

AIR COOLED INDUSTRIAL PORTABLE

15 TON

This large scale unit adapts well to industrial cooling challenges. It has the strength to deliver frosty air up to 100' away. Weatherproof construction allows this unit to remain outside even in the foulest weather.

Features:

- Positioning is a breeze; roll, forklift or hoist into place
- Can be operated by remotely located push-button or thermostat controller
- 45 kVA electric heating capacity built in
- Requires 208 volt three phase power

Applications:

- Special Events - Festivals
- Film Locations
- Construction Sites
- Industrial Plants

With limited floor space in most telecom rooms, our 15 ton unit was the perfect fit for this temporary application. Able to sit outdoors and duct the Cool Air into the building, optimal temperatures were maintained with minimal disturbance.

These units are made to sit outdoors and can handle various weather conditions when operating in either cooling or heating mode. This tent needed cooling to keep guests comfortable at the RBC Canadian Open.

Film locations often require units that can be kept out of the way. This 15 ton unit was situated outside the space being used. The crew were able to operate the unit from inside using our push-button remote. The electric heating capabilities of these units allow for easy change over from cooling to heating.

REAL COOL. REAL FAST.

AIR COOLED INDUSTRIAL PORTABLE 15 TON c/w 45 kVA HEAT (ACI15V23)

COOLING		PHYSICAL	
Capacity	180,000 BTU	Controls	Push Button, Thermostat, Remote Control
Capacity - Cooling	15 ton	Evaporator Air Flow	6000 CFM
Capacity - Heating	45 kVA	Supply Air Duct	3 x 20" up to 75'
Capacity	Approx. 6000 Sq. ft.	Return Air Duct	2 x 24" up to 25'
ELECTRICAL		Condensate Collection	Pumped/Gravity
Voltage	208	Filter Type - Evaporator	2" Box Style MERV 8
Phase	Three	Filter Size - Evaporator	4 @ 20" x 25"
Breaker Size - Cooling	100 Amps	Filter Type - Condenser	WSP Protech Gold Link
Current Draw - Cooling	78 Amps	Filter Size - Condenser	1 @ 36" x 80"
Breaker Size - Heating	125 Amps	Caster Type	6" Phenolic
Current Draw - Heating	Stage 1: 40 Amps Stage 2: 96 Amps	Dimensions - Width	42" 107 cm
Plug	Cam-Lok	Dimensions - Depth	98" 249 cm
Power Cord Length	Male Cam-Lok inlets	Dimensions - Height	111" 282 cm
Power Cord Wire Size	#2 C-way or convertible to 2/4 Cab Tire	Dim - Height - Frame only	99" 252 cm
		Weight	3053 lbs 1385 kg

ROLL IN

Heavy duty casters and good mobility make locating these units a breeze. Wheel assemblies are removable for forklift or crane placement.

PLUG IN

Easily attached industrial flex duct allows for conditioned air to be delivered exactly where you want it.

TURN ON

Simple push button control or hook up the remote cable and control the unit from up to 200' away.

We also rent portable air conditioning units, fans, air movers, and industrial strength heating units. Visit www.cool-air.com for our full line of rental equipment.
