

**COOL AIR™**  
RENTALS LTD

## AIR COOLED INDUSTRIAL PORTABLE

## 5 TON HEAT PUMP

This truly adaptable unit fits through most doorways and has the cooling or heating strength to handle large scale projects. Place the unit inside, outside or even half way between the conditioned space and where you want to supply the conditioned air.

### Features:

- Heavy duty casters make movement a breeze. Simply roll in
- Operation is simple with local or remotely located push-button or thermostat control
- Requires 208 volt three phase power

### Applications:

- Emergency Cooling
- Temporary Structures
- Construction Sites
- Film Locations

When filming in a new location it is difficult to calculate the heat load until all of the production lights are utilized. With a quick response from Cool Air, we were able to deliver on time and within budget keeping cast and crew comfortable during their long days on set.

With the ability to supply air up to 100' away, this unit is perfect for when there is limited space inside the structure and the unit must sit outside. Return air duct can also be utilized when extra cooling or heating power is required.

This is the ideal unit for structures up to 4000 sq ft. It can be positioned anywhere and still effectively provide adequate cooling or heating. Simple controls and ease of set up make this a very user friendly unit.

**REAL COOL. REAL FAST.**

## AIR COOLED INDUSTRIAL PORTABLE 5 TON HEAT PUMP (ACI5H23HP)
