Small spaces suffer from run away temperatures just like large ones. This equipment sets up virtually anywhere and plugs into a standard receptacle. The ease of use made cooling this tent a breeze.

Quiet operation is a hallmark of these portables. This reception area stayed comfortable, and more importantly quiet, when this portable was called on to keep things cool.

When this office suffered the breakdown of their building cooling system, a number of these air cooled portables quickly balanced the temperature and business returned to normal.

REAL COOL. REAL FAST.
