

# COOL AIR™ HEAT

## ELECTRIC HEATER - RADIANT

6 kW

Radiant heat is a great option when you have large open areas where conventional heat would be dissipated or lost. These units heat objects like your body rather than the air, leaving people warm and toasty while the air temperature remains relatively unchanged.

### Features:

- Silent operation ensures that these units do not interfere with conversation
- Support bracket can be attached to scaffolding or hung from a wall or ceiling
- Efficient radiant heaters provide maximum heat with minimal power consumption

### Applications:

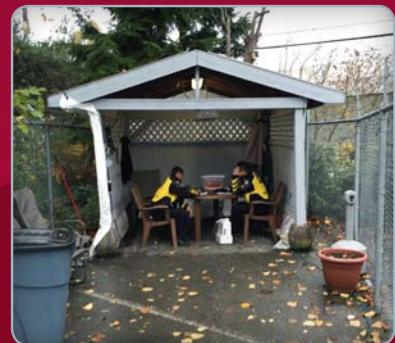

- Restaurants
- Tents
- Spot Heating

These radiant panels are great for temporary structures such as this tent. Heating the people inside the tent instead of the air ensures that the heat energy is used to maximum effect.

This permanent shelter requires heating during the cooler months. Temporary 6 kW heaters were the perfect fit for this drafty space. Radiant heaters are exceptionally good at providing comfortable conditions where other styles of heating fail.

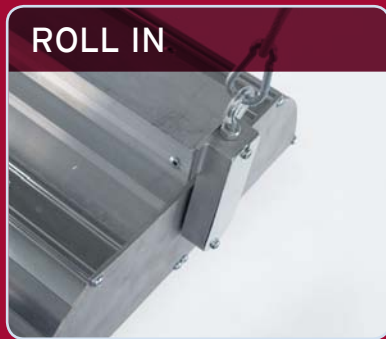

This guard shack is staffed 24 hours a day. Wet inclement weather meant that staff were freezing prior to us setting up our unit. Heating semi-enclosed or leaky spaces is exactly what these units are good at. Bring us your challenge and let us customize a solution for you.

**HEAT...IN A HURRY**

# ELECTRIC HEATER - RADIANT

## 6 kW (HER6H21)

HEATING		6 kW	PHYSICAL		6 kW	
Medium		Electric Radiant	Controls	ON/OFF		
Capacity		20,472 BTU	Dimensions - Width	60"	153 cm	
Capacity		6 kW	Dimensions - Depth	13"	33 cm	
			Dimensions - Height	8"	21 cm	
			Weight	32 lbs	15 kg	
ELECTRICAL						
Voltage		208/230				
Phase		Single				
Breaker Size		30 Amps				
Current Draw		28 Amps				
Plug		NEMA L6-30				
Power Cord Length		12'				
Power Cord Wire Size		10/3 Cab Tire				

### ROLL IN

Built-in eyelets allow this lightweight unit to be hung from virtually anywhere.

### PLUG IN

A simple twist-lock plug allows for easy electrical hook-up.

### TURN ON

Flip the switch and go from full on to full off.

We also rent industrial and portable air conditioning units, fans, and air movers. Visit [www.cool-air.com](http://www.cool-air.com) for our full line of rental equipment.
