

# COOL AIR™ HEAT

## FURNACE - DIESEL FIRED

## 50 kW Campo

This mid-sized heater is an ideal niche filler. It is well-equipped to handle spaces where the larger 117 kW heaters are too powerful. The compact size makes movement much easier than our larger units. These units have a large onboard fuel tank and only require standard 115 volt power for the supply fan. A single 12" supply duct can be run up to 60' away to deliver clean, warm air.

### Features:

- Large scale clean, dry heat
- Industrial grade power burner
- Stainless steel heat exchanger
- Vented combustion gases allow for safe use in confined areas

### Applications:

- Film Sets
- Temporary Structures
- Construction Sites

By placing the supply duct under the roll-up door, this warehouse was able to be heated with virtually zero time spent on prep or installation. The unit is highly mobile and easily moved if needed.

Heating this venue was a snap! With the ability to plug in to a standard 115 volt outlet and the large onboard fuel tank, the host ran our unit for the length of the event without having to attend to it.

This building was undergoing renovations in the middle of winter, and keeping the stucco warm enough to cure properly would not have been possible without our heating unit.

**HEAT...IN A HURRY**

### 50 kW (HOF50H11 Campo)

HEATING		50 kW		PHYSICAL		50 kW	
Medium		Diesel Fired		Controls	ON/OFF Toggle, Remote Thermostat		
Capacity		200,000 BTU		Supply Air Flow	2750 CFM		
Capacity		50 kW		Flexible Ducting	1 x 12" up to 60'		
<b>ELECTRICAL</b>				Fuel Tank Capacity	20 gal	75.5 L	
Voltage		115		Consumption - Diesel	1.32 gal/hr	4.87 L/hr	
Phase		Single		Heat Rise	104° F	40° C	
Breaker Size		15 Amps		Static Pressure	up to 4"		
Current Draw		12 Amps		Flue Connection	4"		
Plug		NEMA 5-15P		Caster Type	2 x 16" Air-filled Flat free		
Power Cord Length		1'		Dimensions - Width	48"	122 cm	
Power Cord Wire Size		#14		Dimensions - Depth	31"	79 cm	
				Dimensions - Height	41"	105 cm	
				Weight - Full	444 lbs	202 kg	

#### ROLL IN

Balanced construction and large air-filled tires allow this unit to be wheeled with ease.

#### PLUG IN

High heat insulated duct with pin lock connections can be easily coupled to customize any installation.

#### TURN ON

A selective toggle allows you to choose between simple ON/OFF control or a wired remote thermostat.

We also rent industrial and portable air conditioning units, fans, and air movers. Visit [www.cool-air.com](http://www.cool-air.com) for our full line of rental equipment.
