

# CONSTRUCTION-BASED TEMPORARY COOLING AND HEATING

PROBLEM SOLVED.

## Efficient Systems

- Well-stocked warehouses located in Vancouver and Edmonton.
- From equipment selection to shipping, every detail is planned and coordinated.
- Our full line- from the smallest portable to our largest industrial-sized unit - is designed to be packed and shipped at a moment's notice.

## Knowledgeable People

- With years of experience facing the challenges of construction applications, our friendly techs bring a wealth of industry know-how and a get-it-done attitude.
- Want a turnkey solution? We'll set it up and get it fully operational, or supply you with the entire package so your own forces can get you back on track.

## Reliable Technology

- Cool Air product innovations represent the best that the industry has available.
- Specifically designed and tested to work in a construction environment.
- Rugged, portable design and straightforward controls ensure reliable, problem-free operation.

Our mission is to consistently pursue the highest standards of preparation, service and dependable performance for temporary heating and cooling solutions that enable our customers to prosper. Since 1995 our customers have turned to us for hassle-free solutions.
