

# COOL AIR™ HEAT

## INDIRECT - GAS FIRED

108 kW

If you need major heat, then this is the equipment for you. Well-equipped for most situations, these units require a fuel source from a propane cylinder or natural gas hook-up. Our gas fired furnaces are great for temporary structures where large electrical power is not available. Waste gases can easily be ducted to the outside.

### Features:

- Large scale clean, dry heat
- Industrial grade power burner, stainless steel heat exchanger
- Vented combustion gases allow for safe use in confined areas

### Applications:

- Temporary Structures
- Industrial Plants
- Construction Sites

Gas fired furnaces are great when large amounts of heat need to be produced. Whether planned or emergency heating is required, these units can get the job done.

By ducting the warm air inside, direct heat can be provided where it is needed most. These units are weatherproof and designed to sit outside where combustion exhaust can vent safely away.

While the dedicated boilers and air handling units were being replaced, these natural gas fired units provided temporary heating for this community centre. All programs and services were kept operational avoiding a costly shutdown.

**HEAT...IN A HURRY**

# INDIRECT - GAS FIRED

## 108 kW (HGF108H11)

HEATING		108 kW	PHYSICAL		108 kW
Fuel Type	Propane or NG		Controls	ON/OFF Toggle, Remote Thermostat	
Capacity - Input	350,000 BTU		Supply Air Flow	2500 CFM	
Capacity - Output	332,000 BTU		Flexible Ducting - Supply	2 x 12" or 1 x 20"	
Capacity	108 kW		Flexible Ducting - Supply	up to 60'	
			Flexible Ducting - Return	n/a	
			Consumption - NG	352 cubic ft/hr	
			Consumption - LP	15.36 L/hr	
			Gas Line Fitting	1" male JIC	
			Heat Rise	150° F	66° C
			Static Pressure	0.4"	
			Flue Connection	6"	
			Caster Type	2 x 16" Air-filled	
			Dimensions - Width	77"	196 cm
			Dimensions - Depth	29"	74 cm
			Dimensions - Height	53"	135 cm
			Weight	405 lbs	184 kg

### ELECTRICAL

Voltage	115
Phase	Single
Breaker Size	15 Amps
Current Draw	12 Amps
Plug	NEMA 5-15P
Power Cord Length	2'
Power Cord Wire Size	14/3

### ROLL IN

Large air-filled tires and balanced construction allow this large unit to be wheeled with relative ease.

### PLUG IN

High heat insulated duct with pin lock connections can be easily coupled to customize any installation.

### TURN ON

A selective toggle allows you to go from on/off control to a wired remote thermostat.

We also rent industrial and portable air conditioning units, fans, and air movers. Visit [www.cool-air.com](http://www.cool-air.com) for our full line of rental equipment.
