

COOL AIR™ HEAT

INDIRECT - GAS FIRED

117 kW

If you need major heat, then this is the equipment for you. Well-equipped for most situations, these units require a fuel source from a propane cylinder or natural gas hook-up. Our gas fired furnaces are great for temporary structures where large electrical power is not available. Waste gases can easily be ducted to the outside.

Features:

- Large-scale clean, dry heat
- Industrial grade power burner, stainless steel heat exchanger
- Vented combustion gases allow for safe use in confined areas

Applications:

- Temporary Structures
- Construction Sites

This mall upgrade included new mechanical facilities. When cooler weather moved in, management needed to keep shoppers comfortable. By utilizing this temporary access opening and building a safety barrier around the unit, we were able to provide warm, clean air into the building.

This unit surpassed expectations when it came to heating this temporary structure. Dependable service and reliable equipment are a must when dealing with special events.

Multiple units were required to keep this condominium project warm and dry through the construction process. Warm interior conditions allow construction schedules to move forward as planned, give a better finished product, and reduce call backs for shrinkage and drying issues.

HEAT...IN A HURRY

INDIRECT - GAS FIRED

117 kW (HGF117H11)

HEATING		117 kW	PHYSICAL		117 kW
Fuel Type	Propane or NG		Controls	ON/OFF Toggle, Remote Thermostat	
Capacity - Input	390,000 BTU		Supply Air Flow	2500 CFM	
Capacity - Output	370,000 BTU		Flexible Ducting - Supply	2 x 12" or 1 x 20"	
Capacity	117 kW		Flexible Ducting - Supply	12" up to 35'	
ELECTRICAL			Flexible Ducting - Supply	20" up to 60'	
			Flexible Ducting - Return	n/a	
Voltage	115		Consumption - NG	380 cubic ft/hr	
Phase	Single		Consumption - LP	4.9 gal/hr	18.5 L/hr
Breaker Size	15 Amps		Heat Rise	130° F	54° C
Current Draw	12 Amps		Static Pressure	0.75"	
Plug	NEMA 5-15P		Flue Connection	6"	
Power Cord Length	2'		Caster Type	2 x 16" Air-filled	
Power Cord Wire Size	14/3		Dimensions - Width	70"	178 cm
			Dimensions - Depth	32"	81 cm
			Dimensions - Height	48"	122 cm
			Weight	470 lbs	213 kg

ROLL IN
Well balanced construction and large air-filled tires allow this unit to be wheeled with ease.

PLUG IN
High heat insulated ducts with pin lock connections can easily be coupled to customize any installation.

TURN ON
A selective toggle allows you to go from local ON/OFF control to a wired remote control.
