

COOL AIR™ HEAT

INDIRECT - GAS FIRED

50 kW Campo

This mid-sized heater is an ideal unit for those moderate heat loads where our larger 117kW or 400K BTU heater is too powerful. With a compact size that allows it to fit in tight spaces, and quiet operation, this unit packs a surprising punch, and doesn't get in anyone's way.

Features:

- Clean, safe, dry heat
- Industrial-duty components ensure reliability
- Vented combustion gases guarantee harmful fumes don't enter the workspace

Applications:

- Film Sets
- Temporary Structures
- Construction Sites

This yearly winter festival utilizes numerous unusually shaped temporary structures. This domed structure had openings in the base that allowed us to easily pass our duct work right inside. Perfect when cool temperatures make conditions inside uncomfortable.

This tent was originally heated by a competitor's direct fired unit, which we replaced with our indirect fired heater. Conditions inside this boat show sales tent improved dramatically. Salespeople were now able to conduct business free of the heavy foul-smelling air that direct fired units produce.

These units are ideal when space is in short supply and high volumes of heat are required. Plugging into a standard 15 amp plug, you can heat structures very effectively. This back yard event wouldn't have been comfortable without these two red workhorses.

HEAT...IN A HURRY

INDIRECT - GAS FIRED

50 kW (HGF50H11 Campo)

HEATING		50 kW	PHYSICAL		50 kW
Fuel Type	Propane or NG		Controls	ON/OFF Toggle, Remote Thermostat	
Capacity - Input	175,000 BTU		Supply Air Flow	3250 CFM	
Capacity - Output	166,000 BTU		Flexible Ducting - Supply	1 x 12"	
Capacity	50 kW		Flexible Ducting - Supply	up to 60'	
			Flexible Ducting - Return	1 x 12"	
			Flexible Ducting - Return	up to 15'	
			Consumption - NG	38.5 cubic ft/hr	
			Consumption - LPG	0.5 gal/hr 1.9 L/hr	
			Heat Rise	104° F 40° C	
			Static Pressure	up to 4"	
			Flue Connection	4"	
			Caster Type	2 x 16" Air-filled Flat free	
			Dimensions - Width	48"	122 cm
			Dimensions - Depth	31"	79 cm
			Dimensions - Height	41"	105 cm
			Weight	420 lbs	191 kg

ELECTRICAL

Voltage	115
Phase	Single
Breaker Size	15 Amps
Current Draw	12 Amps
Plug	NEMA 5-15P
Power Cord Length	1'
Power Cord Wire Size	#14

ROLL IN

Well-balanced construction and large flat-free tires allow this unit to be wheeled with ease.

PLUG IN

High-heat insulated ducts with pin lock connections can easily be coupled to customize any installation.

TURN ON

One toggle selects either local or wired remote operation. A second toggle allows you to easily switch between ON or OFF. Simple!

We also rent industrial and portable air conditioning units, fans, and air movers.
