

COOL AIR™ HEAT

INDIRECT - DIESEL FIRED

108 kW

If you need major heat, then this is the equipment for you. Well equipped for remote locations, these units require a diesel fuel source and 115 volt power for the supply fan. Our oil-fired furnaces are great when large electrical power is not available. Designed to sit outside with the supply air ducted inside, these units can also be positioned inside with the combustion gas ducted to the outside.

Features:

- Large scale clean, dry heat
- Industrial grade power burner, stainless steel heat exchanger
- Vented combustion gases allow for safe use in confined areas

Applications:

- Temporary Structures
- Film Locations

Highly mobile tent clusters on film locations are no problem for these self contained units. Large on-board fuel tanks allow the entire package to be rolled from site to site. All that is required is a standard 115 volt circuit.

By ducting the warm supply air inside the structure, direct heat can be provide where it is needed most. These units are weatherproof and designed to sit outside. Refueling is easy with diesel readily available on film sets to construction sites.

These pop-up tents housed video playback & sound recording equipment when this film project was on location. Warm, dry, clean air are what these units are good at producing.

HEAT...IN A HURRY

INDIRECT - DIESEL FIRED

108 kW (HOF108H11)

HEATING		108 kW		PHYSICAL		108 kW	
Fuel Type	Diesel	Controls	ON/OFF Toggle, Remote Thermostat	Supply Air Flow	2500 CFM		
Capacity - Input	350,000 BTU	Flexible Ducting - Supply	2 x 12" or 1 x 20"	Flexible Ducting - Supply	up to 60'		
Capacity - Output	322,000 BTU	Flexible Ducting - Return	n/a	Consumption - Diesel	2 gal/hr	9.2 L/hr	
Capacity	108 kW	Fuel Capacity	35 gal	158.9 L	Heat Rise	150° F	66° C
ELECTRICAL		Static Pressure	0.4"		Flue Connection	6"	
Voltage	115	Caster Type	2 x 16" Air-filled		Dimensions - Width	77"	196 cm
Phase	Single	Dimensions - Depth	29"	74 cm	Dimensions - Height	53"	135 cm
Breaker Size	15 Amps	Weight - Full	778 lbs	353 kg	Weight - Empty	510 lbs	231 kg
Current Draw	12 Amps						
Plug	NEMA 5-15P						
Power Cord Length	2'						
Power Cord Wire Size	14/3						

ROLL IN

Large air-filled tires and balanced construction allow this large unit to be wheeled with relative ease.

PLUG IN

High heat insulated duct with pin lock connections can be easily coupled to customize any installation.

TURN ON

A selective toggle allows you to go from on/off control to a wired remote thermostat.

We also rent industrial and portable air conditioning units, fans, and air movers.
