

COOL AIR™ HEAT

INDIRECT with GENERATOR - DIESEL FIRED 185 kW

If you need stand alone emergency heat then this is the unit for you. Completely self-sufficient, it's as easy as parking the trailer, hooking up the duct and firing up the unit. No need to acquire electrical hook-up or fuel, this Heat Pro 700 is the perfect urgent heat solution.

Features:

- Sturdy trailer with integral fuel tank, 7 kW generator and on-board ducting ready to roll. Truly heat in a hurry.
- 91% efficient, a quiet large scale heating package.

Applications:

- Emergency Heating
- Temporary Structures
- Industrial Plants
- Film Locations

The onboard 7 kW generator is fed from the main fuel tank. It powers the unit and has two additional 15 Amp circuits for work lights, tools, etc.

This agricultural building at the PNE required a boost in its heating capacity to host a film shoot. Our trailer unit pulled up along side of the building and got busy within 30 minutes. The on-board generator and fuel tank allow for a very streamlined package that is completely self-sufficient.

When cold temperatures hit and this warehouse's heating system failed, this quick response unit proved to be the ideal solution. Eliminating the delay in running power from within the building meant the relief was immediate.

HEAT...IN A HURRY

INDIRECT TRAILER with GENERATOR - DIESEL FIRED 185 kW (HOF185TG)

HEATING		PHYSICAL	
Fuel Type	Diesel	Controls	Local ON/OFF, Remote Thermostat
Capacity - Input	700,000 BTU	Supply Air Flow	7660 CFM
Capacity - Output	637,000 BTU	Flexible Ducting - Supply	2 @ 16"
Capacity	185 kW	Flexible Ducting - Supply	Up to 75' per run
GENERATOR		Flexible Ducting - Return	N/A
Generator Size	7 kW	Fuel Tank Capacity	230 US Gal 870 L
Additional Power	Two 15 Amp circuits	Consumption	5.3 US Gal/hr 21.8 L/hr
		Run Time	40 hrs
		Heat Rise	130° F 54° C
		Flue Connection	Factory Installed
		Dimensions - Width	102" 259 cm
		Dimensions - Depth	160" 407 cm
		Dimensions - Height	83" 211 cm
		Weight w/ fuel	5900 lbs 2677 kg

ROLL IN

With a convenient trailer hitch, simply hook this unit up and roll it into your desired location.

PLUG IN

Flexible ducting allows warm air to be delivered right where it is needed most.

TURN ON

Operated by either this simple selector switch or a remote thermostat, control could not be any easier.

We also rent industrial and portable air conditioning units, fans, and air movers. Visit www.cool-air.com for our full line of rental equipment.
