## AIR COOLED INDUSTRIAL

## 12 TON Stainless Steel

Housed in a rugged stainless steel jacket, this industrial performer is built to last. Twin 16" supply ducts can deliver frosty air up to 100' away. The condenser air can be ducted off the top of this unit, affording it unlimited possibilities. Bring us your challenge – this unit is sure to exceed expectations.

### Features:

- Heavy duty casters make moving this unit an easy task
- Simple on-board or wired remote control
- Weatherproof stainless steel-grade construction
- Requires 208 volt three phase power

### Applications:

- Emergency Cooling & Heating
- Temporary Structures
- Electrical Vaults

Temporary electrical vault cooling allowed this contractor to shed their temporary power and energize the building electrical vault.

The MCC (Motor Control Room) in this plant suffered from excessive heat build up during the summer. An overheating problem would result in the control devices shutting down, placing the production in jeopardy.

This telecommunications hub generates high heat and requires cooling 24/7. With the dedicated equipment undergoing an upgrade, the critical cooling was fulfilled by Cool Air without a problem.

**REAL COOL. REAL FAST.**

## AIR COOLED INDUSTRIAL ACI12H23SS

COOLING		PHYSICAL	
Medium	Air	Controls	Local ON/OFF Remote Push Button or Thermostat
Capacity (Btu)	144,000	Evaporator Air Flow	4800 CFM
Capacity (Ton)	12	Supply Air Duct	2 x 16" up to 100'
ELECTRICAL		Return Air Duct	2 x 14" up to 25' supported
Voltage	208 V	Condensation Collection	Pumped 15' head pressure
Phase	Three	Filter Type - Evaporator	2" Box Style MERV8
Breaker Size (A)	60	Filter Size - Evaporator	4@ 15"x20"
Current Draw (FLA)	38	Filter Type - Condenser	Blue Polyflo
Plug	Cam-Lok	Filter Size - Condenser	1" x 36" x 44"
Power Cord Length	Male Cam-Lok Inlets	Caster Type	Dual 10" Flat-free Swivel
Power Cord Wire Size	#2 C-Way or convertible to 6/4 Cab Tire	Dimensions - W	47"   119 cm
		Dimensions - D	71"   180 cm
		Dimensions - H w/o casters	60"   152cm
		Dimensions - H w/ casters	73"   185cm
		Weight	1353 lbs   614 kg

**ROLL IN**  
Heavy-duty dual flat-free casters ensure these units can easily be pushed or pulled into place.

**PLUG IN**  
Large, flexible duct runs carry frosty air to wherever it's needed.

**TURN ON**  
From simple remote ON/OFF or thermostat control, to the on-board toggle switches, simple, easy control is right at your fingertips.

We also rent hydronic, electric and indirect fired heaters, ventilation units, and pumps. Visit [www.cool-air.com](http://www.cool-air.com) for our full line of rental equipment.
