

DESICCANT DEHUMIDIFIER - 600 SCFM

DED600

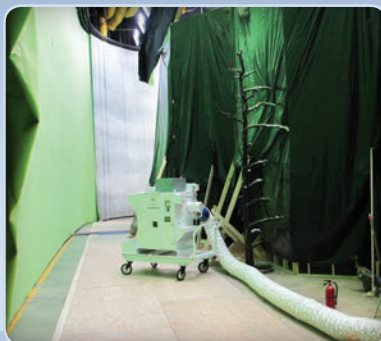

For severe flooding mishaps or major humidity management conditions, this dehumidifier unit is powerful enough to handle the job, yet mobile enough to easily roll in wherever you need it to go.

Features:

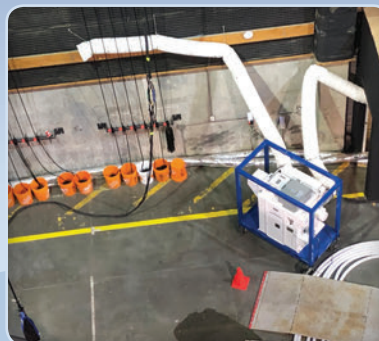

- Strong drying capability
- Portable for easy placement and movement
- Requires 208 volt three phase power

Applications:

- Construction Sites
- Industrial Plants
- Film Studios

When damp weather threatens to interfere with a large-scale painting project, as in the case of this film set being built on a tight schedule, our dehumidifiers can be deployed to mitigate moisture in the air.

This unit was used by a film production company shooting an indoor pool scene. It's mandatory to manage the humidity level for the health of the building, cast, and crew.

After a heavy rain flooded this warehouse and everything that was stored inside, we utilized our dehumidifier units to dry their equipment out and get them back on track.

REAL COOL. REAL FAST.

DESICCANT DEHUMIDIFIER 600 SCFM (DED600)

DEHUMIDIFICATION		OPERATIONAL	
Capacity	600 SCFM	Controls	Local ON/OFF
Capacity - Moisture removal at 75°F 50% RH	16 lbs/hr	Process Air Blower	600 CFM
ELECTRICAL		Process Air Duct	8" dia
Voltage	208	Process Air Inlet	20" x 9 1/2"
Phase	Three	Re-Activation Air Duct	6"
Breaker Size	60 Amps	Re-Activation Air Inlet	13 1/2" x 12 1/2"
Current Draw	28.7 Amps	Process Air Filter	Washable EZ kleen
Plug	Cam-Lok	Filter Size	22" x 10"
Power Cord Length	1' whips	Filter Size	14 1/2" x 16 1/4"
Power Cord Wire Size	#2 C-Way or convertible to 6/4 Cab Tire	Re-Activation Heater	13.5 kW
		PHYSICAL	
		Model	DED600
		Caster Type	8" Flat Free
		Dimensions - Frame Width	63" 161 cm
		Dimensions - Frame Depth	34" 87 cm
		Dimensions - Frame Height	60" 176 cm
		Frame Height - w/casters	72" 153 cm
		Weight	780 lbs 354 kg

ROLL IN
Large, foam-filled flat-free wheels make locating these units a breeze.

PLUG IN
The warm, very humid re-activation air needs to be vented out of the space.

TURN ON
This simple selector switch gives you ON/OFF control. Can't be any simpler than that.

We also rent industrial and portable air conditioning units, chillers, and industrial strength heating units. Visit www.cool-air.com for our full line of rental equipment.
